

Meruyert Beisenova - Data Engineer

Contact:

Email: meruyert.beisenova@example.com

Summary:

Data Engineer with expertise in building and optimizing data pipelines, as well as designing data architectures. Proficient in ETL processes, data warehousing, and cloud platforms such as AWS and GCP. Skilled in SQL, Python, and big data tools, ensuring seamless data integration and availability for analytics and machine learning.

Skills:

- Data Pipeline Development (Airflow, Luigi)
- Data Warehousing (Redshift, BigQuery)
- ETL & Data Integration
- SQL & NoSQL Databases
- Cloud Platforms (AWS, GCP)

Professional Experience:

- **Data Engineer**, DataWorks Inc.
Designed and maintained ETL pipelines for processing large datasets, resulting in a 20% reduction in data processing time.
- **Junior Data Engineer**, AnalyticsNow
Assisted in data transformation and integration projects, enabling more efficient data analysis and reporting.

Education:

Bachelor's in Computer Science, Satbayev University
