

Dana Nurlanova - AI Research Scientist

Contact:

Email: dana.nurlanova@example.com

Summary:

AI Research Scientist specializing in machine learning and deep learning algorithms. Experienced in conducting research, designing models, and publishing findings in top AI journals. Skilled in using AI to solve complex problems, with a strong focus on ethics and model interpretability.

Skills:

- Machine Learning & Deep Learning
- Model Development & Evaluation
- Data Analysis & Preprocessing
- Research & Publication
- Python, TensorFlow, PyTorch

Professional Experience:

- **AI Research Scientist**, Advanced AI Labs
Led research projects in NLP and computer vision, resulting in three publications in international AI conferences.
- **Machine Learning Research Assistant**, AI Research Institute
Developed deep learning models for real-world applications, focusing on model accuracy and interpretability.

Education:

Ph.D. in Artificial Intelligence, Nazarbayev University
