

Ayan Mukhametov - Blockchain Developer

Contact:

Email: ayan.mukhametov@example.com

Summary:

Blockchain Developer specializing in smart contract development and blockchain integration. Skilled in Solidity, Ethereum, and Hyperledger. Known for building decentralized applications (DApps) and ensuring blockchain security.

Skills:

- Smart Contracts (Solidity, Vyper)
- Blockchain Platforms (Ethereum, Hyperledger)
- DApp Development
- Cryptography & Blockchain Security
- Token Development (ERC-20, ERC-721)

Professional Experience:

- **Blockchain Developer**, CryptoDev Solutions
Developed and audited smart contracts for decentralized finance (DeFi) applications, ensuring secure transactions.
- **Software Engineer**, Fintech Innovations
Assisted in integrating blockchain solutions into existing systems, enhancing data transparency and security.

Education:

Bachelor's in Software Engineering, Al-Farabi Kazakh National University
