

Adil Seitkhanov - Hardware Engineer

Contact:

Email: adil.seitkhanov@example.com

Summary:

Hardware Engineer with a solid background in designing, testing, and troubleshooting electronic circuits and systems. Skilled in hardware-software integration, PCB design, and prototype testing. Known for innovative solutions to complex hardware issues.

Skills:

- Circuit Design & PCB Layout
- Hardware-Software Integration
- Prototyping & Testing
- Embedded Systems Design
- Simulation Tools (SPICE, Altium Designer)

Professional Experience:

- **Hardware Engineer**, TechCircuit Labs
Designed and tested hardware components for embedded systems, improving product reliability by 20%.
- **Junior Hardware Technician**, Electronic Innovations
Assisted in prototyping and troubleshooting hardware, contributing to the successful launch of new products.

Education:

Bachelor's in Electrical Engineering, Eurasian National University
