

Rauan Kairzhanov - Big Data Engineer

Contact:

Email: rauan.kairzhanov@example.com

Summary:

Big Data Engineer skilled in processing and managing massive datasets using big data technologies. Proficient in Spark, Hadoop, and NoSQL databases. Known for creating optimized data architectures that support data analytics and machine learning models.

Skills:

- Big Data Tools (Spark, Hadoop)
- Data Lake & Data Warehouse Design
- Data Ingestion & Processing
- NoSQL Databases (Cassandra, HBase)
- Cloud Data Services (AWS, GCP)

Professional Experience:

- **Big Data Engineer**, DataScale Solutions
Built and maintained data lakes and ETL processes for handling petabyte-scale data, enabling faster data access and analytics.
- **Data Engineer**, Cloud Analytics Corp
Contributed to big data projects involving Spark, resulting in a 20% reduction in data processing time.

Education:

Master's in Data Engineering, Eurasian National University
