Nurlybek Zhanaydar - Firmware Engineer

Contact:
Email: nurlybek.zhanaydar@example.com

Summary:
Firmware Engineer with a strong focus on embedded systems programming and real-time operating systems. Proficient in firmware development, testing, and debugging. Experienced in low-level hardware interactions and known for delivering robust firmware solutions.

Skills:

- Embedded C/C++ Programming

- RTOS & Embedded Systems

- Firmware Testing & Debugging

- Hardware-Firmware Integration

- Microcontrollers & ARM Architecture

Professional Experience:

- **Firmware Engineer**, SmartTech Solutions
  Developed and optimized firmware for IoT devices, improving system response time by 30%.

- **Embedded Systems Developer**, Tech Innovations Ltd.
  Programmed and tested firmware for embedded systems, ensuring reliable performance under various conditions.

Education:
Bachelor's in Computer Engineering, Kazakh-British Technical University
