Kamila Tolen - DevOps Engineer

Contact:
Email: kamila.tolen@example.com

Summary:
DevOps Engineer with a strong foundation in CI/CD, automation, and cloud infrastructure management. Proficient in containerization, infrastructure as code, and monitoring tools. Skilled at optimizing deployment processes and improving system reliability.

Skills:

- CI/CD Pipelines (Jenkins, GitLab CI)

- Containerization (Docker, Kubernetes)

- Infrastructure as Code (Terraform, Ansible)

- Cloud Platforms (AWS, Azure)

- Monitoring & Logging (Prometheus, Grafana)

Professional Experience:

- **DevOps Engineer**, CloudOps Solutions
  Developed and optimized CI/CD pipelines, reducing deployment times by 40% and minimizing system downtime.

- **Systems Administrator**, IT Solutions Hub
  Managed servers and supported cloud migration projects, improving system scalability.

Education:
Bachelor's in Computer Engineering, Nazarbayev University
