Timur Asanov - Data Scientist

Contact:
Email: timur.asanov@example.com

Summary:
Data Scientist with a robust background in statistical analysis, machine learning, and data engineering. Skilled in leveraging data-driven insights to solve complex business problems and improve decision-making. Proficient in Python, R, and SQL, and familiar with big data tools such as Hadoop and Spark. Known for a meticulous approach to data cleaning, feature engineering, and model deployment.

Core Competencies:

- Machine Learning & Predictive Modeling

- Statistical Analysis & Experiment Design

- Data Visualization (Tableau, Power BI)

- Big Data (Hadoop, Spark) and ETL Processes

Professional Experience:

- **Data Scientist**, Fintech Innovations
  Developed predictive models to improve customer acquisition and retention, leading to a 20% increase in user engagement.

- **Data Analyst**, Data Insights Inc.
  Analyzed large datasets, delivered actionable insights, and supported data-driven decision-making for marketing and sales teams.

Education:
Master's in Data Science, Nazarbayev University
